

London EV Show 2024: A major leap forward for the EV Industry

The fourth edition of the London EV Show is generating significant buzz as registrations pour in from companies, industry experts, and influential policymakers from the EV ecosystem. This year's event is setting new records for participation and enthusiasm, marking a major milestone in the evolution of the London EV Show and solidifying its position as a premier event in the EV industry.

Temps de lecture : minute

19 August 2024

Set over 18,000 square meters, the event will host over 15,000 business attendees, representing 3,500+ companies. Attendees can expect to see 300+ exhibitors, hear from 180+ speakers, and network with a large contingent of C-suite executives. More than 100 exhibitors have already confirmed their participation, including prominent names like Autel Europe UK Limited, Ekoenergetyka, Lotus Flash Charge, and Power Electronics.

The London EV Show provides a platform for EV businesses to showcase their latest models, cutting-edge electrification technologies, and innovative products. Over three days, the event will feature test drive tracks and live demonstrations, allowing visitors to experience the latest advancements firsthand. EV innovations from electric cars and light vehicles to charging infrastructure, battery systems, eVTOLs, and even electric boats will be showcased. This year's show offers exhibitors a valuable opportunity to gain real-time market feedback, engage with industry buyers and investors, and establish business connections.

The event will also host a high-profile conference, featuring a series of insightful sessions designed to address the entire EV value chain. Attendees will hear from key industry figures, including ministers, EV manufacturers, and experts in charging infrastructure and battery management systems. The conference will tackle important topics such as fleet electrification, eVTOL, and charging infrastructure, providing a platform for professionals to exchange pioneering ideas and strategies aimed at accelerating global EV adoption.

Notable speakers who have confirmed their participation include Alex Gilbert, Head of Energy and Electrification at Transport for London; Stephen Elderkin, Director of Environmental Sustainability at National Highways; H.E. Rafael Ortiz Fabrega, Ambassador of Costa Rica; and Robert Penfold, Director of Powertrain at Jaguar Land Rover, among others. The diverse speaker lineup promises to deliver powerful keynotes and engage in high-level strategic discussions that will shape the future of the EV industry.

The London EV Show is set to bring together the entire EV sector, offering visitors an immersive experience filled with cutting-edge technology exhibits, engaging panel discussions, and unparalleled networking opportunities. This event is a must-attend for anyone passionate about the future of electric mobility, providing a unique opportunity to strengthen market presence and elevate brand visibility on a global stage.
